PROJECTS

Movies Review - React JS

- Check Live: <https://moviesreview-ten.vercel.app/>
- Code: https://github.com/ganeshsuryawansh/movies_review.git
- This project is a web application where users can sign up, log in, add movies, and share their opinions about the movies. It is designed to offer a platform for movie enthusiasts to express their thoughts and engage with others.
- Designed and implemented user interfaces using React.js
- Used Tailwind CSS for responsive and modern designs.
- Integrated Firebase for backend-as-a-service, including data storage and user authentication.
- Implemented OTP authentication for enhanced security.
- Technologies Used: React.js, Tailwind CSS, Firebase

News web app - React JS

- Code: <https://github.com/ganeshsuryawansh/NewsAppReact>
- This is a responsive news web application that categorizes news by Entertainment, Business, Technology, Sports, etc. It leverages the Newsapi.org API to fetch news content and display it to users dynamically.
- Built a user-friendly, responsive interface using React.js and Tailwind CSS.
- Fetches and displays news in a categorized manner using Newsapi.org API.
- Utilized React's useEffect Hook to fetch API data upon component mounting.
- Managed the current state of category selection using React's useState Hook.
- Technologies Used:** React.js, Tailwind CSS, Web Services API (Newsapi.org), JavaScript

Ecommerce - Online Shopping System With Razorpay Payment Gateway Inegration - React Js

- Check Live: <https://shopmart-psi.vercel.app/>
- Code: <https://github.com/ganeshsuryawansh/ShopMart>
- This is a responsive shopping web application that categorizes product by Shoes, Mobile Phones, Laptops.
- User can Register login add product to cart , remove from cart , user can see all order details and share those details to WhatsApp.
- We have used Razorpay Payment Gateway .
- Technologies Used:** React.js, Tailwind CSS, JavaScript, Razorpay Payment Gateway, Firebase Firestore.
